

First Baptist Church Regina Town Hall Meeting – Sunday, October 24, 2021

When: Immediately following the morning worship service

Where: In the sanctuary

Our goal will be to take some time to process together our current transition in music leadership. The Music Futures Committee will be keeping notes on what is shared. We will pose a few questions and facilitate conversation as we continue to move toward a clearer, shared picture of the direction our music ministry could take now.

At the meeting, we will break into smaller groups and then re-gather to listen to one another and to the Holy Spirit. Our discussion will be around the following three groups of questions:

What has been wonderful?

Can you think of a time that our music ministered especially to you? What are one or two of our strengths in music and worship? What is one thing you want to see continue in our music ministries and worship services?

Do you wonder if something could be different?

Is there something new that you would like to try? Is there something you would like to leave behind?

How could our music ministry continue to grow as a means of outreach?

How do you see the choir/music ministry caring for our community? How could it be outreach? Is there some new way we might minister to our neighbours or our city through music? Is there some way we might minister to the music community in Regina?

Each person's views are important. Please come prepared to share your thoughts on these questions.
